## NORTH CAROLINA TURMOIL

BESIEGED CANVASSING BOARD RE-LIEVED BY NAVAL RESERVES.

Disorder, Amounting to Riots, Prevails in Several Places-Butler Gives Warning of a Day of Reckoning No Punishment Provided Law for Dishonest Election Officers.

RALEIGH, N. C., Aug. 5 .- The county canvassing board of Pamlico county, which has been barricaded in the Court House at Bayboro since yesterday at noon to protect itself from the angry mob, was relieved this morning shortly after day. The arrival of the Newbern naval reserves, who were ordered out by the Governor to preserve order and keep the peace, had a magic effect on the mob, which was threatening the canvassing board. When the naval militia with their rapid fire guns arrived at Bayboro the mob dispersed. The canvassing board regained its liberty, and no demonstration has been made since the arrival of the

Gov. Russell is being criticised for ordering out the troops in view of the fact that there was no demand for them on the part of the Sheriff. The Sheriff was a candidate for reelection, whose tenure of office depends upon the action of the canvassing board, which is of another political faith. The Sheriff, who is a Populist, led the mob in its assault upon the canvassing board. The canvassing board did not count the vote yesterday. The board adjoined until Monday at noon after the arrival of the militia. It is said that the board will give the vote of the county to the Democrats. The militia remains at the seat of trouble.

Senator Butler, the Populist State and national chairman, makes this statement relative to the election in the State. He says:

"The returns indicate that the Democratic ticket has been elected by a good round majority. I do not believe a majority of the people of the State favored this amendment or wanted to vote the Democratic ticket. The fact is that between 30,000 and 40,000, and the figures may reach 50,000, legally qualified voters were denied registration by the Democratic registrars under Chairman Simmons's direction. Mr. Simmons failed to provide in his election law that registrars should take an oath to perform their duties and no penalty has been provided for their failure to do their duty.

Every registrar had carte blanche to be as dishonest as he pleased or rather as dishonest as he was instructed to be. This explains how so many thousands of legality qualified voters were dealed the right to register. After this wholesale disfranchisement thero was still a majority of legally qualified voters, who were against the amendment and the Democratic machine. The majority which the democratic residence, intimidation and rascality. After the registration books were closed thousands of men who had registered were challenged without sufficient cause and prevented from voting. In many places rifles were imported and mobs of Red Shirts paraded in certain regions for days before the day of election, and especially on the day and evening preceding the election they fired off their weapons to frighten and intimidate voters from going to the polls. They used dozens of devices and tricks, which the loopholes in the Election law permitted to disfranchise voters. The great majority of voters of all parties in North Carolina are law abiding citizens. They will not tolerate such methods. There will be a hereafter to this election and it is not far distant." nest as he pleased or rather as dishonest

of ar distant."

CHARLOTTE, N. C., Aug. 5.—All over the Stat) the cunvassing boards met yesterday to tabulate the vote of Thursday last and to declare the result. The face of the returns show that the Democrats elected their ticket for State officers by about 60,000 and that the suffrage amendment has about the same majority. At many of the county seats the Populists and Republicans were on hand to protest against what they term high-handed fraud. In a large number of the counties the majority for the Democratic ticket was smail. In such countries Democratic ticket was small. In such coun ies the Fusion representatives assert that they will contest the result on the grounds of intimidation and bailot box stuffing. Late last night Senator Butler and Senator Pritchard issued the following circular to the Fusion chairmen in all of the ninety-seven counties of the State.

timidation and ballot box stuffing. Late last night Senator Butler and Senator Pritchard issued the following circular to the Fusion chairmen in all of the ninety-seven counties of the State:

"Wherever elections in any county or Senatorial district have been carried by fraud or intimidation, violence or other irregularities, it is advised that the candidate so defranded should confer at once with his friends and make diligent inquiries, and if the truth can be obtained, contests ought to be made and notice given under section 2.550 of the code.

"If proper investigation shows to the candidate so fraudulently deprived of his rights that the proof of his own election required by the said section cannot be made, then such candidate should see if proof cannot be had sufficiently to show that there was in fact no valid election held and that the election pretended to have been held ought to be declared void and a new election ordered.

"Get a copy of the poll book at every precenter where the irregularities occurred, as these books may sometimes disappear from the office of the Register of Deeds, where section 17 of the Election law requires them to be deposited. The courts will declare all elections void where it is shown that fraud, violence, intimidation and other irregularities were such as defeated the will of a majority of the people, as expressed at the polls, and a new election will be ordered."

This indicates that Senator Butler and the other Fusion managers will fight to the bitter end. They say that in many of the counties the existence of fraud of the worst type can be established, and that easily. It is also ascertained to-day that the contests will be brought as soon as possible before the Supreme Court of the State. This court is composed of a majority of Fusion Judges and the Democrats fear the outcome.

The rooting in the western counties is far from being quelled. On the other hand, it is the opinion of level heads in that region that serious trouble will result. At a small town near Asheville a

### HAWAII'S LABOR SUPPLY SHORT. Planters Expect to Supply the Deficiency From

NEW ORLEANS, Aug. 5. John Rind and I. H Collins, representing a number of Hawaiian planters, arrived here to secure labor for the planters, arrived here to secure labor for the new plantations opened in Hawaii. They say that the supply of labor on the islands is very short. They were sent to the United States to secure negro labor and came to Louisiana, believing they could get the best sugar labor here. They will, however, go to Porto Rico first, as it is reported that there is an abundance of idle labor on the sugar plantations of that island. It is expected to supply the labor deficiency in Hawaii caused by the stoppage of Japanese immigration, from Louisiana and Porto Rico.

Patrick H. Farrell, delegate of the National Association of Steamfitters and Helpers, declared ye-terday at the meeting of the Central Labor Union that the District Attorney had Labor Union that the District Attorney had falled to do his duty in the matter of the killing of P. O'Grady about a month ago. The man was murdered, he said in Fitzpatrick's salcon at Fitty-sixth street and Tenth avenue, his skull heing smashed with a club in the hands of a bartender. The bartender was arrested. Farrell said, and was discharged. Farrell declared that two men who were witnesses of the homicide and could have given important evidence were not called. The Grievanca Committee of the C. L. U. was ordered to investigate.

### Rooms Engaged in Saratoga for Republican State Leaders.

SARATOGA, Aug. 5.—There is an unconfirmed rumor that Timothy Woodruff, who is a candidate for Governor, will open his headquarters at the United States Hotel in a few days. Secretary Deubin L. Fox of the Republican State Committee has been in town and engaged rooms for a scere or so of well-known leaders. They include Thomas C. Platt, Cornelius Van Cott. Lispenard Stewart, Benjamin B. O'Donnell, Michael Dady John W. Dwight, Frederick S. Gibbs, Charles S. Wilbur, Charles W. Meade, M. M. Clement and A. J. Gilbert.

### KILLED BY SHOWMEN.

Members of Buckskin Bill's Outfit Shoot Fatally a Citizen in. Marion, Ky.

MARION, Ky., Aug. & .- In a fight with the Rough Riders" of "Buckskin Bill's Wild West Show at midnight John Coke and William Walters were knocked down and clubbed. They came to town bruked and bleeding and told their story. C. C. Wheeler at once started to the station, where he ran into a crowd o twenty of the showmen. Words were quickly followed by pistol shots. Wheeler was knocked down and crawled under a wagon. The showmen quicky surrounded the wagon and some twenty shots were fired at the man beneath. He was then dragged out and rounded with

a club. Another citizen found the guns of the show men in his ace and was told to get up town. He left and gave the alarm and a few minutes afterward Wheeler was found fifty yards away dying. He had been robbed of his pistol and He had three gunshot wounds and his skull was cracked in two places. He died before a doctor could reach him. The showmen stood off the crowd until their train pulled

## GARY FAMILY'S OFFICE HOLDING.

Another Member Wants to Be Governor o South Carolina-Tillman Supporting Him.

COLUMBIA, S C., Aug. 5 .- With four dispensary candidates and one Prohibition candidate for Governor, Senator Tillman has gone so far as to espouse the cause of one of the dispensary men and oppose the reflection of Gov. McSweeney. A politician," he says, "would not mix in State quarrels in his own party, but I claim to be a statesman, not a politician." While openly fighting Col. Hoyt, the Pro-

bibitionist, Senator Tillman is pulling for Frank B. Gary, present Speaker of the House of Rep resentatives. With a clean record Mr. Gary

B. Gary, present Speaker of the House of Representatives. With a clean record Mr. Gary finds himself heavily handicapped in this race by the astonishing record of his family as officeholders. He is being attacked on this line and it will be a heavy weight, even for the combined strength of himself and Senator Tillman to carry. Here is a summary:

Mr. Gary is himself a member of the House and Speaker: Ernest Gary, a brother, was promoted from member of the House to Circuit Judge, an office he now fills; Eugene B. Gary, a brother, was likewise advanced from member of the House to Associate Justice of the Superene Court, where he now is; John Gary Evans, first cousin, was a member of the House, then promoted to the Senate, then made Governor, and finally ran against Earle and then Molaurin for United States Senator; John Gary Watts, another of the house of Gary, was assistant Adjutant and Inspector-General, then Adjutant-General of the State: W. D. Evans, another of the blood, is a member of the Raliroad Commission: Barney B. Evans of the same line is a candidate for Rairoad Commissioner; H. H. Evans, another of the house of Gary, was promoted from the Legislature to be a member of the State Board of Control; W. Boyd Evans of the same blood was the last Governor's private secretary, and was since made State Agent to collect war claims.

A recapitulation shows that in the last six years the Gary family has held something like a "leadpipe cinch" on offices. Nine of them in that time have held fourteen offices and are either now candidates or have contested for seven more.

### PUT POISON IN HIS PATHER'S COFFEE Thirteen-Year-Old Boy Objected to Being

Whipped for Not Doing His Work. FRESNO, Cal., Aug. 5 .- The record of youthul depravity in California is broken by a thirteen-year-old boy of this place who has just confessed that he poisoned his father in order that he might get a team of horses and not be beaten for failing to do his work. The boy is Fred Himes, whose mother is dead and whose father is a ranchman who drinks heavily and is not kind to his five boys. The family moved here recently and began to work a ranch. Two weeks ago the father was taken sick and is still

here recently and began to work a ranch. Two weeks ago the father was taken sick and is still in a critical condition.

Yesterday one of Himes's nephews confessed that Fred had put rat poison in his father's coffee. When questioned Fred, who is intelligent, coolly admitted his guilt. He said that he and his younger brother had saved up 25 cents and with this he bought the rat poison, as they were both determined not to be whipped any more by their father. Fred did the cooking and he put the poison in the coffee pot from which his father drank. He said that he loved horses but that his father would not let him drive his team. Fred's idea was that if his father was made sick by poison then the boys would be able to make their own living with the team and would not be whipped any more. The doctors fear that Himes cannot recover.

### INDICTED FOR GIVING BAD CHECKS. Mrs. Emma K. Sergeant Arrested at Asbur

at her home in Asbury Park yesterday at the request of Detective Sergeant Cary of the Central Office force. The detective had a varrant based on an indictment against Mrs. Sergeant found by the July Grand Jury charging her with grand larceny. The complainants were Best & Co., Lord & Taylor, Bloom ingdale Brothers, James McCreery, H. C. F. Koch, the Siegel-Cooper Company and Abrakoch, the Siegel-Cooper Company and Abraham & Straus. The woman, according to the detective, had obtained goods at the steres of all the complainants, and had given fraudulent checks on the People's Bank of East Orange, N. J., and the Newark Savings Rank in payment of her bills. The whole amount of the fraudulent checks named in the complaint was something more than \$250. They were all drawn between December, 1899, and March, 1000.

March, 1000.

Mrs. Sergeant is 40 years old and has grown sons and daughters. She lived here at 5 West Eighth street. Refore coming to this city she lived at 365 Arlington avenue, East Orange. She has been living with her family at 606 Asbury years. She has been living with avenue, Asbury Park.

## TWO COMPANIES TO BE DISBANDED

Co. K and Co. L. Second Regiment of New TRENTON, N. J., Aug. 5 .- It is likely that two more companies of the Second Regiment, N. G. N. J., which have fallen below the required standard of efficiency will be disbanded. The companies are Company K of Montelair and Company L of Newton, both of which went to the recent encampment at Sea Girt with fewer men than the law requires, and Cel. Gillmore has decided that it will be to the best interest of the regiment to have their officers relieved of the commands. It is understood that Gov. Voorhees will issue an order declaring the two companies to be no longer in the State's service. The new companies to take their places will probably be organized in Plainfield and Princeton.

### PENSIONS FOR LETTER CARRIERS. Draft of Retirement Bill Approved by Letter

The New York Letter Carriers' Association net yesterday in Brevoort Hall. Fifty-fourth street near Third avenue, and drafted the pension and retirement bill which it is proposed to ask Congress to pass. The bill provides for the pensioning of superannuated and incapacitated letter carriers and for a graduated tax on their salaries, as follows, for the purpose of the pension: First ten years, 2 per cent. 10 to 15 years, 8 per cent.; from 15 to 20 years, 4 per cent.; from 20 years' service up, 5 per cent. Men can be retired after 25 years' service. The bill will be submitted to the national convention of letter carriers next September in Details.

BINGHAMTON, N. Y., Aug. 5 .- Mrs. Catherine M. Barkman has obtained an absolute divorce from her husband, Dr. M. Barkman of this city. Dr. Barkman began business in Albany county as a druggist and moving to Geneva he and Mrs. Catherine Barkman opened a drug store in that place and made money. Then he came to this city and with his wife's aid in five years to this city and with his wife's aid in five years made \$100,000 in the drug business. While away on a pieasure trip a bill came to his address for furniture. His wife began an investigation, which resulted in an action for divorce, in which Mrs. Delia Vermilyea and Lizzie Wheaton Cameron were named as co-respondents. Mrs. Cameron is an elocutionist and actress who is well known throughout the cities of western New York.

James Walsh, who says that he lives on Sec ond street, took a distaste on Saturday night to a dummy in front of a clothing store at 64 Bowery, and knocked it out with a punch on the point of the jaw. Then he jumped on it and rolled into the gatter with it, thumping it furiously and having all the best of it. He was fined \$10 in Centre street court yesterday.

## MOB DRIVES ZIONISTS OFF. DOWLE'S WORKERS NOT ALLOWED TO

STOP IN MANSFIELD, OHIO. Mcials Crowded the Train When They Reached Town and the Cars Moved Off With Them-Mob Ready for Them When They Came Back Again-Sent to Chicago.

MANSFIELD, Ohio, Aug. 5 .- Early this morning people from surrounding towns began to pour into Mansfield and before the arrival of the Erie railroad train due in Mansfield at 6:35 A. M. it was estimated that fully 3,000 persons were at the station to meet the Zion elders sent back to Mansfield by Dowie, the leader of the Zionites. Attorney James P. Seward, representing the city and county officials, and Attorney A. A. Douglass, for the Zionites, met the Zion preachers at Galion, twelve miles from Mansfield, and found Overseer Piper, Elders McClurken and McFarland and Evangelist Fisher in a sleeping car in a jovial mood, unmindful of the fact that they were threatened with death or serious injury should they attempt to leave the train at Mansfield. The attorneys besought and begged them not to leave the train at Mansfield, but it was in vain. as the Zionites were determined to land. Overseer Piper said to the lawyers:

"You have made a good talk from a legal and civil standpoint, but I speak from a religious and moral standpoint. If I were to be torn to pieces within ten minutes I would get off the train at Mansfield."

When the train neared Mansfield the Zionites knelt in prayer in the aisles of the car. All of the doors in the car vestibules were locked by the trainmen to prevent the mob from entering the car. Meanwhile nearly a hundred deputies, police officers and the fire department men were assembled at the station. They kept the mob in check. Twelve members of the mob were placed under arrest. When the train steamed into the station the assembled mob broke into loud cheers and surged forward toward the sleeping car. Mayor Brown ascended the steps of the sleeper and commanded the mob to disperse.

Meanwhile deputies and policemen entered the car and blocked the aisles so that the Zionites were unable to make their way out of the ear despite their protests. Soon the train started and in a minute the train was pulling out of the station amid the wild shouts of the mob with the Zionites on board.

The Zionites were carried to Ashland, eighteen miles away, but they prepared to drive back to Mansfield in a livery rig. Liverymen were afraid that their rigs would be demolished if the Zionites should drive to Mansfield and reused to take them. The outwitted Dowie men then went to a hotel. The news spread rapidly and a curious crowd gathered, but no demonstration was attempted. The following telerram was then sent Sheriff Pulver: "Myself and three ministers will arrive on

he Erie train due in Mansfield at 2:20. We intend to land. Police act illegally in preventing JOHN H. PIPER. Again in the afternoon another crowd of

,000 citizens gathered at the station. The deputies and police cleared the platform and is the train pulled in Sheriff Pulver and the authorities entered the car where the preachers were and demanded that they return to Chicago. This they agreed to do and Sheriff Pulver checked their baggage to Chicago. The train pulled out and the baffled Zion elders were on the return trip to Chicago. The crowd Jeered and cheered frantically as the train pulled out. Adjutant-General Gyger came to the city on Saturday night and was present at the train. Al-

that their presence was not necessary, as the authorities had the situation in hand. It is said that there is a possibility that the Grand Jury may indict Dowie for criminal libel for his bitter attacks upon the personal character of Mayor Brown. The Zion preachers who distributed the papers in Mansfield may also be indicted. Elder McClurken and Evangelist Fisher, who attempted to come back to

### on last Monday evening. POSSE GETS TWO RAD MEY

First Arrested Two Country Preachers by Mis-

SHARPSBURG, Ky., Aug. 5 .- Last night the Post Office here was broken into and robbed of \$280 in money and \$100 in stamps. After looting the office, the men escaped. As soon as the robbery was discovered, a posse was organized by United States Deputy Marshal McCardy. The posse had not proceeded far when they ran across two suspicious characters. They were captured and a thorough investigation followed. Each was able to prove himself an inoffensive country preacher and the posse consented to their release. Just at daybreak smoke was seen rising from a haystack to the right of the road. Marshal McCardy went forward to spy out the land, but was stopped by a rifle ball that passed through his hat. He then fell back and the members of the posse spread themselves out in a wide circle around the stack. The Marshal called on the stack dwellers to surrender but the reply was:

"We'll be damned if we do. Come and get us."

This statement was backed up with half a dozen shots and the parley came to an end. Firing then began on both sides and was kept up for four hours. Finally a gun barrel with a handkerchief at the end of it was raised above the stack. The Marshal went forward and received the surrender of Joseph Watson and Paul Miller, who have long been known in the county as bad men. Watson and Miller are in jail. No one was hurt in the battle. organized by United States Deputy Marshal

### FROM A WINDOW WITH HER CHILD Mrs. Schneider Tried to Save Ruth but Loss Her Own Balance - Both Badly Hurt.

girl and carrying a four-months-old baby went to the East Fifty-first street police station on Friday night and told the sergeant that she wanted shelter for the night. She said she was Lena Schneider, and that she had lived at 42) Sixth street until her husband deserted her. The sergeant was struck with her appearance and her story and sent her with a policeman to the St. Zita's Home for Friendiess Women at 125 East Fifty-second street. There the superintendent, Miss Elien O'Keefe, agreed to keep her for a day or two although women with children are not ordiarily received there. The Schneiders were put in a back room on the third floor.

Yesterday afternoon several of the inmates who were sitting in the yard back of the house were startled to see Mrs. Schneider and the older girl, whose name is Ruth, fall from their window to the roof of a little shed, through which they crashed. Mrs. Schneider's right wrist and probably her skull, and the little girl's left hip were broken. They were taken to Flower Hospital, and the baby was sent after them.

Mrs. Schneider said that Ruth had been also said she was Lena Schneider, and that she had

# them. Mrs. Schneider said that Ruth had been playing near the window. Seeing that she was about to fall out the mother tried to catch her but lost her balance and both fell. The baby was lying on the bed.

N. Y. CENTRAL HAYSHED FIRES.

Suspicion Fails on a Discharged Employee, and He Is Under Arrest. employed at the New York Central and Hudson River Railroad haysheds at the foot of West Thirty-third street, was remanded yesterday morning in the West Side court on suspicion of arson. Detective Michaels of the Thirtyseventh street station and one of Fire Marshal Seery's assistants are trying to work up a case Seery's assistants are trying to work up a case against the man. Mooney, the police say, was discharged from the employ of the railroad about May 1. Since that time there have been three very suspicious fires in the haysheds and each time Mooney is said to have been seen near the place. The latest fire was on Friday night and Fire Marshal Seery's men investigated thoroughly and then told their suspicions to Acting Captain Cooney of the West Thirty-seventh street station. Cooney and Detective Michaels arrested Mooney on Saturday afternoon in a lodging house at 352 Eighth avenue. He protested his innocence

William Carpenter, a negro who lives in East 103d street, wanted his wife Mary to go with him yesterday to a party. She dressed herself, but at the last minute refused to go because she said her bonnet wasn't good enough. The police found her later lying in a pool of blood, locked in a vacant flat on the second floer of the house. She said her husband had thrown her downstairs. Her injuries are serious. The husband escaped. The woman is in the Hariem Hospital.

### LOUD TALK AT A LABOR MEETING. FILIPINO REBELS ACTIVE. C. F. U. Delegates Almost Come to Blows in Discussing Political Jobs.

The Central Federated Union got into as uproar yesterday over charges and countercharges about delegates holding political jobs. Although many of the delegates are angling for political preferment, the union as a body considers it a crime to hold office under the city, State or National governments. The row began yesterday by Timothy Daly of the Metal Polishers saying that he had heard that paperhanger James P. Archibald, President of the C. F. U. had a political job and was therefore not eligible to a seat in the body. Archibald, he had been told, had been appointed Inspector of Highways, although his name did

not appear on the city payrolls. "What of it?" said Delegate Kelly of the tage carpenters. "Delegate O'Brien also holds a political job. He's a tenement house commissioner."

O'Brien said his job was not a salaried one and was therefore not in the same category as Archibald's. A committee consisting of Delegates Kelly, Barr and Cameron was then appointed to investigate the case of Archibald, who was not at the meeting. When Delegate Johnson of the Manhattan Musical Union complained that the Bluestone Lutters employed a band not recognized by the L. F. U. for a picnic, Delegate O'Brien demanded o know the standing of Johnson's organization. Johnson is generally referred to in the L. F. U. meetings as the official bandmaster of ammany Hall.

Tammany Hall.

"Johnson's organization some years ago was represented in the American Federation of Musicians," said O'Brien, "and was expelled. I am told its rotten. Johnson to my knowledge has played his political fiddle here very often for his own personal ends,"

"You're a liar!" yelled Johnson.
O'Brien went on to sneer at Johnson's band, declaring that he was a better musician than Johnson, who could only play the bass drum. He denounced Johnson for making use of the C. F. U. for his own personal ends and Johnson retorted by saying that O'Brien was a "Bowery fiddler." "Why," said O'Brien, "there's only half a dozen men in 'Professor' Johnson's union."

half a dozen men in 'Professor' Johnson's union."

"I admit that I'm a Tammany man," said Johnson, whereat there was a chorus of groans and hisses mingled with some applause. "I own that I play the bass drum occasionally but I can also play the fiddle. If I were not competent I could not hold the jobs I get as bandmaster at the parks and piers."

This seemed to set the delegates crazy and they were all on their feet trying to talk at the same time. "Sit down all of you," shouted the chairman A. J. Smith of the clothing cuters. "I won thear a word until you sit down."

"You're a fraud," roared Delegate O'Connell of the varnishers, advancing to the Chair. "You're no chairman." Other delegates turned fiercely on the chairman and denounced him. Smith was almost paralyzed with astonishment.

ment.
"What do you all mean?" he asked.
"Why aint you square?" said half a dozer Why and you square? said half a dezen voices.

"By God, I'm square, but you wont give me a chance," said the chairman.

The uproar continued for about ten minutes when the delegates as if by one consent stopped shouting and some of them seemed ashamed. Johnson's original complaint that the bluestone cutters were employing a rival musical union to supply music, which had been completely lost sight of, was brought up again. A motion was then carried to the effect that the bluestone cutters must employ a band provided by Johnson's organization.

### CAUGHT A SHARK BY THE TAIL. And With a Bathing Towel to Help Him Hold

on With He Landed His Prize, He Says. LONG BRANCH, N. J., Aug. 5 .- There is on exhibition at Schwark's saloon a seven-foot hark that Ernst Kupfer declares he captured while bathing near West End last evening. Kupfer says he has had experiences with sharks off the east coast of Australia, and that when he saw the fin of one within a few feet of though troops were held in readiness he found him last evening he was not alarmed.

"I was in deep water," he said, "and I knew I could get the shark into shallow water he if I could get the shark into shallow water he would be my prize. I pulled for the shore, making as much noise as possible, as past experience had taught me the more noise the less danger to a bather. With the aid of two or three good breakers I had the shark in shallow water. I caught him by the tail and at the same time called to a bather on the shore to bring me my bathing towel, so that I could get a better hold. My Iriend came to my ald and in a few minutes we had the shark ashore.

Kupfel is 60 years old. He is spending the season at the Herbert Cottage on Broadway, where he exhibited his prize after it had been yiewed by the people of West End and vicinity. Mansfield, received coats of paint by the mob

## COTTON AFIRE ON THE BOVIC.

-20 Bales of Smoking Cotton Hauled Out. One of the watch aboard the twin screw White Star freighter Bovic. lying at her pier at smoke coming from the middle hatch about 4:15 o'clock yesterday morning. He notified Quartermaster Anderson and the crew was called to fire quarters. Meanwhile Anderson had gone to the head of the pier and turned in an alarm, which brought two engines to the

an alarm, which brought two charles he pier.

The ship's own hose was at work when the engines came, and the crew with the help of the firemen soon put out the biaze. It had started in a lot of cotton in the middle hold. Twenty charred bales had been hauled up on deck and drenched. They were then taken out into the street and more water was poured on them. The ship herself was not damaged. The damage to the cotton will not exceed \$1,000. The Bovic is scheduled to sail to-morrow for Liverpool. She will carry a large scarge of

## ELECTRICAL WORKERS STRIKE.

Forty Agree to Quit Work on Two Big Buildings in Newark. About forty inside wiremen, members of the Brotherhood of Electrical Workers, have

agreed to absent themselves from the work upon W. V. Snyder's and L. S. Plaut & Co.'s stores in Newark this morning. The wiring is being done by J. P. Hall of this city, whose is being done by J. P. Hall of this city, whose representative in Newark, Mr. Flynn, is said to have agreed to pay the same wages in Newark as in this city, or \$3.50 a day of eight hours. The Newark men say they found on Friday ri ht that they were to get only \$3 a day. They say that if the strike is not quickly settled plambers, carpenters, steamfitters and plambers, carpenters, steamfitters and elevator workmen will strike in sympathy and that the work on the two big department stores will be completely stopped by the withdrawal of nearly 40 men.

A committee of the striking shirt waist makers at Floersheimer & Roman's factory called at the meeting of the Central Federated Union yesterday and asked for its "moral support" in the strike. A committee was appointed to see the employers and to try to get the reduction of wages against the workers who had struck withdrawn, and also to hire a lawyer to defend the strike riskes when they are agreed. the strike pickets when they are arrested.

The Bluestone Cutters' Union, which has arranged to hold a picnic in a park which is under the ban of the Central Federated Union agreed vesterday to boycott its own picnic. This action was the result of a complaint that non-union beer and cigars were sold at the park. As the park was already engaged for the plenic and there was no way of backing out the union agreed to buy no beer or cigars on the picnic grounds.

## Boy Keeping Flies From a Horse Bitten in

the Lip. George Hoyt, 6 years old, son of William Hoyt, a blacksmith of Tompkins avenue, Newtown, L. I., was bitten by a horse and seriously injured Saturday. The boy's father was shoeinjured Saturday. The boy's father was shoeing a horse and the little fellow was keeping
the flies from annoying the animal. A big fly
lighted on the horse's face and the boy tried to
kneck it off. The horse wung its head around
and caught the child's lower lip between its
teeth, bit mg a big piece out of the boy's lip.
The boy fell to the floor of the blacksmith shop
unconscious, and his condition is considered
serious.

COLORADO SPRINGS, Col., Aug. 5 .- Horatio Wildman for twenty years joint local freight agent here and at Denver for the Denver and Rio Grande and Rock Island roads, committed suicide to-day by shooting himself in the head. He had become despondent over his inability to fill the Denver field, to which he had recently been appointed. He had received a two months' vacation and with his wife and twelve-year-old son had planned to go to Los Angeles, Cal.

John Crosby Brown, 59 Wall street. Treasurer of the Committee of One Hundred on India Famine Relief, reports contributions of \$1,385.-36 received on Saturday, making a total to date

ANTE-ELECTION DISPLAY OF RESIST-ANCE TO AMERICAN RULE.

The Twenty Americans Captured on Wednes day Fought Until Their Ammunition Was Exhausted-Loyal Filipino Captain of Na-

Special Cable Despatch to THE SUN. MANILA, Aug. 5 .- A wave of insurgent activ ity is sweeping over the islands, but chiefly in Luzon, and it will probably continue until after the Presidential election in the United States. The troops in the vicinity of San Isidro have been frequently attacked, and the Filipinos have managed to escape without receiving their usual rapid punishment.

On Wednesday last Techon's band of insurgents captured five men of the Twenty-fourth Regiment, Lieut. Aitataetter and three other engineers and eleven cavalrymen, and took them into the mountains. The Americans made a gallant defence against the rebels and were not captured until their ammunition was completely exhausted.

The Quartermaster's trains are all heavily

guarded. The rebels constantly attempt to ambush them, but the vigilance of the Americans has prevented any successful attack. Gen. MacArthur is preparing an extensive

expedition for the purpose of driving the inurgents out of Bulucan province. A scouting expedition operating around Laguna de Bay has destroyed the quarters of Col. Caeles, twelve barracks, and the food and

medical stores of the rebels. Messrs. Wright and Worcester, of the Philippine Commission, are investigating the climatic and agricultural conditions at Bangued. Supt. Atkinson finds that there is a universal demand for schoolhouses. He is arranging meetings with the chief Presidentes for the purpose of endeavoring to provide instruction for the children in their districts.

Capt. Iara, chief of the Manila native police, who captured Gens. del Pilar and Ricarte and who is a most aggressive criminal hunter, was shot and seriously wounded yesterday by an unknown enemy.

The results of the campaign during the past week show 39 rebels killed and 35 captured. Sixty rifles were captured. The Americans lost 7 killed, including an officer, 9 wounded and 21 captured, including an officer.

### SOUTH AMERICAN TRADE NOTES. Facts About the Commercial Development of the Latin Republics.

The Republic of Guatemala has impos tax of \$70 a head on all cattle exported from the country. It is intended to be prohibitive. A recent issue of the Pan-American Atlas published in Perlin says there are 403,000 persons of German birth or descent in South and Central America and the West Indies. The revenues of the street car companies of Buenos Ayres in the month of April in this

year amounted to \$1,111,681.63. The municpality received \$68,700.91 of this sum. Immigration to the Argentine Republic s increasing. Official statistics for 1899 show the number of immigrants from other than South American countries to have been 84,442, an increase over the preceding year of 44,045. Belgians in Brazil are seeking the repeal of the 10 per cent. duty now imposed by Belgium on Brazilian coffee in return for stimulation to be given by the Brazilian Government to Belgian imports which have recently been fall-ing off. The United States and Germany have ing off. The United States and Germany have been cutting into the iron import trade of which the Belgians had strong control at one time. A current number of the Brussels Bulletin Commercial comments sadly on the loss by Belgium of the Chilian market for cement. Germany increased her exportations of cement to Chili from 35.000 barrels in 1897 to 55.300 in 1898. Belgium dropped from 4,000 to 1,000 barrels. Great Britain dropped from 60,000 to 25,000 barrels. The Bulletin blames the Chilian Government, which, it alleges, discriminates against the Belgian product in all public works.

discriminates against the Belgian product in all public works.

Mexico seems anxious to get back the sons and grandsons of her former citizens who are now citizens of the United States, living in California, Colorado, Arizona and New Mexico, in a colonization concession recently made the Government stipulated that all colonists must be from foreign countries with preference for those of Mexican origin now in the States and Territories above mentioned.

ditions are improv-

those of Mexican origin now in the States and Territories above mentioned.

The Argentine's trade conditions are improved by the condition of the condition of

the great ice caves. Bordering on the "desert" and out in the "desert" there are a succession of caves. So far as explored they have not proved to be very large. During winter and summer some of them contain ice, and one especially, known as the big ice cave, contain

summer some of them contain ice, and one especially, known as the big ice cave, contains a large amount all of the time. The ice is pure and clear as a crystal, and apparently inexhaustible. When ice is talten out water soon fills its place and freezes. Stockmen have more than once been benefited by this natural supply of ice. In killing fresh meat in the vicinity in summer they take ice from this cave to keep the meat fresh.

On one occusion a stockman was wounded, and, the weather being very warm, inflammation set in. A companion, who knew of this cave, went to it and procured ice and kept the temperature of the wounded man reduced until medical assistance could be obtained. On the Fourth of July, at a celebration by the ranchers, several miles away, ice cream and lemonade were made with ice procured from this cave. The most remarkable thing about the matter is the appearance and preservation of ice in this place. The ice supply is only 75 feet from the mouth of the cave, and possibly not over 50 feet from the surface of the earth. In other caverns of like depth in the same vicinity, there is no ice, and a well at that depth would not retain ice much longer than if it were on top of the ground.

To enter the cave one goes down an incline of about 45 degrees, and, as the opening faces the south, the sun at noon sends its rays almost to the lee. The weather is very warm here in summer, and the preservation of the ice is a mystery. It is not the depth in the earth that preserves it, but there is a theory that the formation below has some agency in the matter. It is also believed that there is a vast body of the ice beneath, as the ice disappears under the rocks on one side, and is of an unknown thickness.

### MASSENA'S BIG CANAL.

The Work is Progressing Rapidly This Season

-Its Great Possibilities. MASSENA, N. Y., Aug. 5.—The great water and electrical power project here is progress ing satisfactorily. There is now no doubt as to the completion of the undertaking. The Grass River will soon be harnessed to the St. Lawrence, and water from the latter, pouring into the artificial channel, will find its way to the Grass and again to the big river a few miles below.

Work on the canal was only fairly begun one year ago. Previously it had been delayed through litigation. But so rapidly has the work progressed during the present season that it is expected that the electrical power de veloped by the canal will be ready for use by Jan. 1, 1901. More than 4,000,000 cubic yards of earth and rock have already been removed from the bed of the canal. The high places a the St. Lawrence end have been cut down and the St. Lawrence end have been cut down and the water let in as far as the Andrews ridge, more than a third the length of the canal. A great cut has also been made in the ridge.

The place for the foundation of the power house has been dug out of solid rock to a depth of twelve to fifteen feet. It now covers an area of nearly 50,000 square feet. The whole foundation will be composed of concrete consisting of Portland cement, river sand and crushed stone, making a combination harder

foundation will be composed of concrete consisting of Portland cement, river sand and crushed stone, making a combination harder than the original limestone.

The canal will furnish 150,000 electrical horse power. Seven 5,000-horse-power generators will be ready this fall. One is now finished and ready for delivery. It is said that negotiations now under way will dispose of the entire power when the plant is completed. The power will be used largely in the manufacture of chemicals by electricity.

The power company, it is alleged, is trying to interest the United States Government in the canal, with a view to its use for shipping as well as power producing. By deepening the channel of the Grass River, and putting a lock in the canal, vessels could pass out of the St. Lawrence River into the Grass River, through the canal and back into the St. Lawrence. In this way the Long Sault Rapids would be avoided and shipping greatly facilitated. Massena, if te plan is carried out, may become a port of entry. The War Department, it is said, has the matter under consideration, and it may result in the beginning of a system of American canals along the St. Lawrence.

### SNAILS' TEETH.

They Run About 30,000 to the Snall, but Only 4.000 or so Are Used at One Time. From the Chicago Tribune. "It is a fortunate thing for man and the rest

of the animal kingdom," said the naturalist, "that no large wild animal has a mouth constructed with the devouring apparatus built on the plan of the insignificant looking snail's mouth, for that animal could out-devour anything that lives. The snall itself is such an entirely unpleasant, not to say loathsome, creature to handle that few amateur naturalists care to bother with it, but by neglecting the snail they miss studying one of the most interesting objects that come under their ob-

the snail they miss studying one of the most interesting objects that come under their observation.

"Any one who has noticed a snail feeding on a leaf must have wondered how such a soft, flabby, slimy animal can make such a soft, flabby, slimy animal can make such a sharp and clean-cut incision in the leaf, leaving an edge as smooth and straight as if it had been cut with a knife. That is due to the peculiar and formidable mouth he has. The snail eats with his tongue and the roof of his mouth. The tongue is a ribbon which the snail keeps in a coll in his mouth. This tongue is in reality a band saw, with the teeth on the surface instead of on the edge. The teeth are so smail that as many as 30,000 of them have been found on one snail's tongue. They are exceedingly sharp and only a few of them are used at a time—not exactly only a few of them, but a few of them comparatively, for the snail will probably have 4,000 or 5,000 of them in use at once. He does this by means of his coiled tongue. He can uncoif as much of this as he chooses, and the uncoiled part he brings into serivce. The roof of his mouth is as hard as bone. He grasps the leaf between his tongue and that hard substance and, rasping away with his tongue, saws through the toughest leaf with ease, always leaving the edge smooth and straight.

"By use the teeth wear off or become dulled. When the snail finds that this tool is becoming blunted he uncoils another section and works that out until he has come to the end of the coil. Then he coils the tongue up again and is ready to start in new, for while he has been using the latter portions of the ribbon the teeth have grown in again in the idle portions—the saw has been filed and reset, so to speak—and while he is using them the teeth in the back part of the coil are renewed. So I think I am right in saying that if any large-beast of prey was filted up with such a devouring apparatus at the snail has it would go hard with the rest

STAMFORD, Conn., Aug. 5.—Bass fishing is the best known in years in the Sound waters of this ricinity, so the old fishermen and boatmen all say. Several parties go out every day and all say. Several parties go out every day and all come back with good catches. The fish vary in size from five to fourteen pounds. The favorite grounds are at a piace known as Flat Rock, just off J. Kennedy Tod's summer home in Sound Beach. Some big bass have been caught there, George W. Brush having pulled in one weighting twenty rounds after a hard fight. But the largest bas ever caught here was landed by Theodore Miller from Cove Pond near Stanford harbor. It weighed twenty-eight founds. The bass taken from this pond are always large, most of them running over fifteen; ounds each. All through the month of July the bass fishing has been good, though Augu t and October are the best months in which to catch them.

## JOTTINGS ABOUT TOWN.

A young man in a blue serge sult attempted to get off an Eighth avenue car at 135th street and Eighth avenue last night. His head struck an elevated pil lar, and he was taken to the J. Hood Wright Hospital with a fractured skull.

with a fractured skull.

George Lester and his wife of 300 West Thirtieth street were driving on Macomb's Dam road yesterday afternoon, when their rig was struck at 153d street by a horse and buggy driven by John Gould of Seaman's livery stables at Seventy-sixth street and Park avenue. Mrs. Lester was thrown out, and got a bad wound on her left arm.

Joseph Krabochive, 65 years od of 1374 Pirst avenue and Fred Schrinek, 47 years old of 404 East Sevenue and Fred Schrinek, 47 years old of 404 East Sevenue and Fred Schrinek, 47 years old of 404 East Sevenue and Fred Schrinek, 47 years old of 404 East Sevenue and Fred Schrinek, 47 years old of 404 East Sevenue and Fred Schrinek, 47 years old of 404 East Sevenue and Fred Schrinek, 18 years old of 404 East avenue and Seventy second street and First avenue. Schrinek brought the fight to a finish by stabiling Krabochive in the left breast, the neck and over the right eye. Krabochive will recover. The other was locked up. Neither would tell what the row was about. Both are Austrian cabinet makers.

FOUND HIS DAUGHTER DEAD.

Berlochi Says Her Body Was Floating in the Water When He Got to the Pond. YONKERS, Aug. 5 .- A report was received the police this morning about 7:30 o'clock that Rachel Berlochi, 20 years old of 221 Thompson street, New York city, had been drowned in a small pond at Hackett's Quarry, at Midland and Central Park avenues. They found the

and Central Park avenues. They found the body of the young woman surrounded by acrowd of Italians in a settlement a short distance from the place where they said she lost her life. The police were told that the young woman had come to this city last night with her father, Peter Berlochi, 70 years old, her common-law husband. Giovanni Calcini, and several other Italians. The relatives of the dead woman said that the entire party had slept out in the woods last night. Later, they said, they went to an Italian house near by and slept there.

According to the story told, the young woman went to the pond to wash out some clothes early this morning. She did not return and her father went in search of her. He insists that he discovered the dead body of his daughter floating in the water. The relatives state that the young woman was subject to fits and that she probably fell during an attack.
